Judicial appeal.

Foreword

Dismissed

Reasons

Out of time. (Historic)
Failed to comply with protocol,
Civil Procedure rules, and
Imprecise pleadings.

Case: Judicial Appeal.

R. x Mr. Jerome Thomas (claimant)

v

Doctors: Mr. M. Kulshrestha & Dr. R. O. Paul. (Interested parties)

The General Medical Council and Dyfed-Powis Police Force.

The Police Commissioner. (Defendants)

Notes.

1. This case is brought to correct injustice with no intent whatsoever to be frivolous nor vexatious.
2. Unable to obtain legal support I respectfully ask the court to make allowance for any[my] errors
3. I ask for no compensation for my losses, and can pay my own court fees; However: I would be grateful and appreciate if the court would rule: each party to pay their **own** costs please. (See 1.)
In the event the court rule otherwise, I will need to declare bankruptcy, being on a state pension.
4. Now 82 I have age related illness e.g. enlarged prostate etc. and it is very difficult to travel far.
If the court would kindly send any queries by post I will respond immediately in writing. Thank you
5. Any ruling cannot restore the damage to my person. However it will if correctly applied prevent others being abused in a similar manner and, show truth and Justice can prevail over this Evil.

Simply no person(s) is to be above or escape the law, for the good of all.

May I thank you for your consideration with a true and open mind. Thank you.

Jerome Thomas.

End.

I ask your Lordships to review and correct the decisions of: 1. The General Medical Council. 2. Dyfed-Powys Police for my case. Specifically: 1. To instruct the GMC to acknowledge and confirm: the defendant Doctors did, in fact, **fail to comply** with the directives of the GMC. 2. To instruct the Dyfed-Powys Police Officers to acknowledge and confirm what these defendant doctors did were **serious crimes** - of Grievous Bodily Harm and attempted Murder (by proxy) acted upon me, and, they should have investigated and charged them.

However, I *sincerely* apologise for contacting you, of necessity. I will be brief, and not delay you for too long.

Truly, I can find **no Justice** in the Dyfed-Powys Police force. Only **Obstruction** and **Perversion** of Justice.

I progressed to these officers via the GMC. A dysfunctional organisation. One very heavily biased in favour of the doctors. In proof please see enclosed, a copy of my last letters to them both, after years of writing.

Briefly:

I am not financially wealthy nor influential. Just an ordinary working man, whom is extremely grateful for the state pension. I have lived a happy and productive life. My wife, children and grandchildren, all love me.

For this I consider myself rich beyond measure, and, have no wish to write disparagingly about anyone.

However: These two men, doctors, have attempted to ruin these last years of my life, exposing what they do.

I can show their practices were deliberate; sadistic; and incompatible with the GMC directives. Contrary to the many published medical papers, of which he admitted, he was well aware. (see Prof. Hayreh. et. encl.)

If you need an independent second opinion; please ask *any **qualified eye consultant*** these two questions:

1. Would they prescribe Lumigan eye drops to be applied at **bedtime**? Yes, or No? And, why not?
2. Would they prescribe a **continuous** MRI head scan of duration **80 minutes**? Yes or no? And, why not?

The above, these doctors used to “treat” me. Result 1. To blind and, 2. To kill me. (by a stroke, embolism et.)

3. The eye stabbing of Dr. R.O. Paul, and manner in which he executed it speaks for itself. Cruel, vicious, sadistic and uncalled for very painful action, in support of his mentor and guide, Mr. M. Kulshrestha. (Evil.)

Both these doctors ignored **published medical papers and** subjected me (this patient and likely many more) to harmful treatments. Knowingly. Deliberately. Contrary to GMC directives. The GMC has **refused** to stop them giving the same irreparable damage to more patients. I can confirm in truth the *fatality* of their actions.

Their treatment to inflict irreparable damage on their patients. Specifically; Awakening blindness, continuous pain, head injuries, loss of balance, blackouts. et. **Deliberately**. With overwhelming evidence; **all denied** by the GMC, whom replied with contempt for my suffering. The Police have also **refused** to **investigate** their actions. **Deliberate injuries** they inflicted as **crimes** at all. Painful Crimes of GBH and attempted Murder.

From: Mr Jerome Thomas. (retired) The Hollies, Tynreithin Tregaron Ceredigion SY256LW 15 / 6 /2021

To: **Your Lord and Ladyship.** Judicial appeal 2. **The General Medical Council** Page No. 2 of 12.

I have notified all “interested parties” by recorded post for this review. (Please see postal receipts) Where an address is withheld I have sent it to the relevant department asking them to forward it on to the person.

Following the denial of my complaint by Mr Purt. CEO of the NHS, - based upon the **lies** of these doctors;

I reported them to the GMC. (letters encl.) The executive and staff of the GMC: a) **denied** the doctors had done anything wrong and b) **argued** with the victim (me) tendering various *spurious excuses* and denials.

I quote: “...The decision maker applied the correct test.... the (my) allegations, if proven... The medical examiner.. who? states....there was no risk in taking Lumigan at bed time... that the Lumigan drops could not cause NAION.... there is no proven link between an MRI head scan and headaches ...it is not ordered (the MRI head scan) by length... given the information available to us (?)... there is no evidence,.... aside from (my) your assertions... the doctor cannot be criticised, et. ” *these*; are all GMC words in reply to me.

After *years* of this, I gave up, on the GMC. They **knew** what these doctors had done was 1) Contrary to their directives (formulary) and 2) **all** the medical publications, of which the GMC were well aware. I.e The *timing* of their Lumigan prescription. **Known** to be [their directive] **no later** than in the **evening**. Also: 2) **maximum safe time limit** for an MRI head scan was **1 hour max**. on this head scanner. By *both* the **manufacturer** of the machine and also the GMC, substantiated in their directives; distributed in well known *medical papers*. i.e. I hold the GMC to be willing and complicit accomplices of these doctors, before and after the events.

Most of their replies to me were “anonymous.” Signed “Registrar” etc. with a few names, i.e. Ms. C. Binks. Since I, with **no medical training**, can find out what these doctors did “wrong,” definitively, can the GMC. Their replies were delayed, usually by months. This also I believe was deliberate. i) The longer their delay I could recover, or *die*! ii) I could very easily lose heart in pursuing it. iii) The doctors would be able to claim their “**3 year exemption rule**.” The GMC “long time” replies were clearly to their pre-determined advantage. I admit to finding the **GMC a terrible, useless, public service**. Biased, and argued, in favour of the doctors. **Useless** to a victim; *contrary* to their PR. Upon the **absolute refusal** by the GMC to accept my complaint. (Please see enclosed my last letters to the GMC.) I wrote strongly, in complete **exasperation** of their long delays and denials; with their **total contempt** for my serious complaint. Years wasted, contacting them. Now: I trusted the Police would investigate my genuine, honest, provable complaint fairly with an open mind. I submitted it to the Aberystwyth Police force, for the CPS department, as I was instructed, by a helpful young lady on the telephone. Please continued to page 3.

From: Mr Jerome Thomas. (retired) The Hollies, Tynreithin Tregaron Ceredigion SY256LW 15 / 6 /2021

To: **Your Lord and Ladyship.** Judicial appeal 3. **The Dyfed-Powis Police:** Page No. 3 of 12.

I am not educated in medicine, legality, or any professions, but please, do credit me with the ability to know when I have been *deliberately* hurt. Hurt, blinded, in pain, to the edge of death. GBH and attempted murder. I believed, ***in error***, the Police would *investigate* my genuine provable complaint fairly, with an open mind.

That is, with all the evidence. Witnesses, staff nurse, radiologists (2), many published medical documents, Samples supplied, including my ***sworn statement*** as material witness to what these doctors had done to me.

Not so. These Police officers used *obstruction* i.e. ***"lost"*** all my documents; used procrastination; in delays and, ***refused*** to *investigate*. ***They Obstructed*** and ***Perverted*** the course of Justice. If any of them received similar treatment would they accept this? Blinded, years of head pain, by a continuous 80 minute scan; with an eye stabbing to complete their Evil? That is; *irreparable* damage to my body; ***deliberately*** done by consultant doctors; professionals whom I had trusted. On the refusal of these Police officers to investigate I asked the **IPCC / IOPC** to investigate please. They ***also refused***; referring it back for "local" resolution! I.e. By the ***same officers*** who had ***already refused*** to investigate my complaint. A ***useless*** exercise; more delays. In the summer of 2018 I telephoned the CPS and asked how I should make a complaint regarding GBH and attempted murder (by proxy) by two men employed by the NHS. A young lady answered my call and told me to deliver my statement, with full details, into the local police. [Aberystwyth] Police station. I did this. I collated all the relevant information appertaining to my statement; evidence, documents, etc. in a 30+ A4 pages file; delivering it by my hand into Aberystwyth police station on 28th August. 2018. Mr David Davies, on reception, accepted my thick file and I requested a receipt off him for it please. He declined to give me a receipt, saying they do not do that.(?) In this case, I asked him to ask the CPS to acknowledge receipt of my file please. One which had taken over a month for me to write and compile. No such acknowledgement was received. Concerned I telephone Aberystwyth on 14 Sept. and PC E.Thomas [no rel.] said he had not seen the file, but gave me a "call number" of 223 for it. I phoned again on the 24th Sept. and PC I. Chapman said he had not seen nor read my file and, did not know where it was; but, the CPS were not going to pursue it.(?) I asked him who said this? He declined to tell me. PC David Davies said he had put my file in the internal mail to Carmarthen. I telephoned the CPS and a Ms Tracy said they had no knowledge of my file - which should have had a URN. [unique reference number.] I was not given a URN; and the CPS have no record of it. I contacted their complaints department who were also unable to locate my file. ***"Lost," all my work!*** Carefully sorted and typed evidence of my complaint with my statement, ***published*** medical documents, etc. Detailed proof of their deliberate treatment. All ***"Lost," All my work gone!*** I said, a duplicate will be supplied.

I *can* understand why. When the police find I write the truth (I do) it will become necessary to take action against these doctors and organisations which **notably**, the Police firmly refuse to do. And we pay for this? Their “**refusal** to investigate” is a breach of contract. Crown employees we are obliged to pay, in our rates. While they, like the GMC, **refuse** to investigate and deny my genuine valid complaint. **Refusing** to stop these men from hurting many others. Refusal by these Police officers - to **do their duty** - for very serious crimes. On Feb. 12th at 5 p m. Mr Rees telephoned me to say they **would not** be pursuing my complaint and, he did confirm this on the 12th May writing, “**No crimes had been committed... no crimes would be reported.**”(1) These doctors, I am told, are now in Shrewsbury and Crewe; with *their* Gospel of blindness, pain and death. I ask you: **is this Justice?** I find it very disappointing, appalling! For over 70 years I have **naively** supported the Police. The first time I report a serious crime they refuse to help; and **definitely fail** - to protect the public. One can complain, suffer, and die; while they refuse Justice. I am ashamed to say these officers represent the UK law. Note: I have not made any representations to the media; the press; nor television; to bring them into disrepute; since it may easily destroy public confidence. And, help incite rioters, etc. I respect authority. Abide by it; and **contribute** to it! But **where is it**, Justice! **Who is the enemy?** The GMC and the Police; who allow these doctors to carry on? Or me? A law abiding, old man? These doctors **knew exactly** what they were doing. They *knew*, and would know, as consultants, who do this work **every day**. I.e. Expected to **know** that Lumigan (a perfectly correct medication) **will** instigate awakening blindness (NAION) if used at bedtime. **Why did he prescribe it at bedtime?** Contrary to the GMC directives, and, the published medical papers? I obeyed him. (He is a consultant; and knows far more medically than I ever will.) Now: this consultant orders a **continuous multiple** MRI head scan for me. Scans which he orders **regularly, knowing** this one, with his multiple scans, would need an **excessive duration** of 1 hour 20 minutes? (**80 minutes!**) A normal MRI head scan duration is ~40 minutes. **Why**, did he order one (for me) requiring **80 minutes?** A **grossly excessive, double duration**, condemned by his peers and, **in gross** excess of the GMC directive - of **1 hour maximum!** (**60 min. maximum.**) Regulated, as specified by the machine maker also, the GMC. His multiple MRI scan was **more than enough** to cause a stroke embolism or similar death. It gave **severe** head pain for **3+ years!** Simply: **They wanted me dead.** Dr Paul stabbed into my right eye, in pretence of an E.P test. Mechanically and painfully blinding me, again! The pain lasted for months; day *and night*, with no let up. They abused an old man with **good eye sight**. One who *respected* them; prescribing him into blindness and “everlasting” pain. One certain to ensure I could **never** recover *this time*. **I did!** Still blind (1 eye) but **alive**; asking for Justice.

From: Mr Jerome Thomas. (retired) The Hollies, Tynreithin Tregaron Ceredigion SY256LW 15 / 6 /2021

To: Your Lord and Ladyship. Judicial appeal 5. **A Far Greater Evil:** Page No. 5 of 12.

These police officers have broken their contract. They enforce the law, for which we have paid, - in to the public purse included in our rates. For me this year alone, £100's of pounds. Over 60 years, many **£1,000's**. This yearly demand is taken from me, forming a contract which they have broken, refusing to "**do their duty**." We pay them to protect us, and enforce the law. And the law is - their *own law*. Only whatever **they say it is!** The way the police have replied to me i.e. (There is No specific intent No crimes committed .. etc.) is such:

- a) These police **autocratically** condemn my complaint as untrue. It is true! I will swear every word on oath.
- b) By refusing **any investigation** the police **usurp** any decision rightfully made by a judge or jury. Is this legal? i.e. The Police enforce the law, and **their** law is... only **what they say it is!** Unbelievable bias. Prejudicial.
- c) The actions of these doctors **embody** the proof of their intent. It is self-evident. Lumigan drops at bedtime **will** instigate awakening blind. Excessive MRI head scans **will** instigate detrimental effects, stroke, or death. By my G.P. and God's help I recovered my sight. (one eye) Survived their **80 minute** MRI head scan. (Evil.) To do my best - to see **no one else, ever**, suffers their treatment. Treatment as given by these two "doctors." When the GMC and the Police deny it and refuse(!) to investigate their deliberate harm, they sow their seeds of injustice wide. The public need only to see how the GMC and Police **obstruct, pervert, and refuse** (!) to investigate for a victim. I need none of this; a total waste of time. Only to stop them doing their Evil to others.

My wife asked me: " Why do I not get angry?" I replied. "Anger opens the door for revenge; and while it can be swift and understandable, it will make me as Evil as the perpetrators. Also, will not deliver Justice at all."

A neighbour's dog was stealing my chickens. I telephoned the neighbour and told him. He said, "Show me!" We agreed to meet at the adjoining fence. I showed him the dog, chicken in his mouth. The neighbour, seeing the shotgun under my arm, he said, "shoot the dog!" I replied: "This is *your* dog, you deal with him correctly." N. b. This dog was hungry, and doing, what to him, was natural. (This is a 100% true story.) Now may I say to you: These doctors are your "dogs" who **seriously** injured me. Deprived me of the last years of my life. I could not work; nor play, not even *see what I ate!* Uncaring, they have ruined years of my life and, **refused** to put their damage right! (No Duty of Care) They did this deliberately. (don't ask me why, ask them.) I do not know how **anyone**, let alone as doctors, can be so Evil. Please, do stop them doing this to others. The Evil committed by these men now reveal a far greater "ripple." A systemic network of cosy corruption? By those in authority. In both the GMC and, these high ranking officers of the Police force. The GMC rejected my complaint with contempt; and now the Dyfed-Powis police have **obstructed** Justice with lost documents, procrastination, and their firm refusal to investigate my genuine, truthful and accurate complaint. Simply: They perverted the course of Justice by refusing, several times, to even *investigate* my complaint! They have had **every opportunity** to reconsider this, their decision. I pleaded with them; - not to "go down with the ship." Also, appealing to the **Police Commissioner** to guide them in this. He to, also declined to help me in anyway. A modern Pontius Pilate. Another dysfunctional post, just to help the police. Not, as **promoted**, for the public. Please understand why I can confirm: "**I can find No justice in the GMC, nor these Police officers.**"

To: **Your Lord and Ladyship.** Judicial appeal 6. **Why do I pursue this?** Page No. 6

At 82 why do I pursue this? It would be *far easier* to “cross over to the other side of the road.” (Biblical.)

My G. P, and God, did help me recover from the Evil of these two doctors. - In order to reveal how the GMC and Police practice. My conscience *dictates* these doctors *need* to be stopped from doing their deliberate harm to others. Lines of elderly ladies and men, awaiting their turn, to be “treated” by these men. Lost souls, whom, unknowingly, *may* regret ever meeting them. If these doctors had apologised, or shown **any** sign of helping me to recover, this would not have arose. Instead, they decided to “**double down**” to get rid of me. Dead. Permanently, by proxy. With a stroke, embolism or similar affect. Ideally death! Also, discredited by their lies. As dishonesty is of **no issue** at all for them, only being removed off the Registry can have any effect. Even this may not stop them; but it *should* remove their shields. The GMC and Police; i.e. removing their “cover.” Please record: They have **demonstrated clearly to** me, they are **pre-disposed** to selected **Evil**. No apology, No contrition nor remorse. To **deliberately** make a person blind *is* **Evil**. And if they find out how, they **kill** them! I have good reason to believe they have done this before. They **certainly** did it to me; and, **will do it again**. Because: they can; and, get away with it. Shielded by the GMC. Protected by the Police; they are **invulnerable**! Without doubt, they are extremely clever educated men; who *c/should* do a lot of good. Credit due. I feel sorry for them - as doctors they are truly mentally ill. I wish them no harm, as they **disqualify** themselves. Justice? This is not for me to say. Like the dogs, they are **your problem** not mine. I only **report** what they did to me. They select their victim, prescribe him (or her) into blindness, lie to them as necessary; and if, as by some Instinct or miracle, their victims find out what they have done, proceed to **kill** them by proxy to bury their Evil. If **you knew someone** who did this, would you report them? Or, just let them carry on? Doing it to others? Please see my dilemma. Even if they said: “*they will stop,*” with their dishonesty, I could not believe them. To show the police obstruction: Since I reported this to the Police, nearly **3 years** ago, medical papers have been removed from the web; the witnesses have been given early retirement; the MRI scanner has been removed from the room and; even the clock removed from over the door! My papers in the file, etc. **All “lost.”** More: I have met junior doctors who have been influenced in to their doctrine, and so, their destruction grows. Will you stop them please? *Not for me* (I am spilt milk) for possibly 100's of others, from being similarly treated.

The denials of the **GMC** and the **Police** show a more worrying picture. Think of the effect this has had on me. A normal, law abiding, family man whom pays his taxes, even his TV licence, insures his car, and in every way supports authority for the good of the community. And now see corruption in the GMC and Police. We call on the police to support us against crime and now, they positively **refuse** to do so? These police replies of refusal sow their seeds; note: by **these officers**, for riots etc; requiring additional policemen, body armour and weapons, et. At huge expense, and with injuries! To control what these officers have **originated themselves!** Because: Justice needs to be done; and *seen to be done*. Not denied, lied about, and refused! *Every* complaint handled incorrectly can become a fuse. The police *need* to build integrity which takes time. *Every* complaint handled with the care shown to me, irretrievably breaks police support. Lost forever. **Never** to be restored at the point of a gun or baton. Denial of Justice (and threats!) confirm, with **whom they side**.

While the police call for additional men, weapons etc. to control the streets; it could be **far cheaper** for them to see justice done. And in this way, win the support of the people who *could rely* upon them, seeing Justice done. This support can *never* be achieved by force. *Every time* the police fail to listen to complaints and respond unjustly, they put **another nail** in their coffin of public support. Yes? So why do it?

The police *really* need to understand this. Perhaps they do! And only want to **look** as if they are effective? But, I suggest, they are causing it! At least fuelling it. No **normal** persons wish to wreck havoc in the streets. Risking injury, etc. Unless - they feel mistreated; unjustly treated; ignored or refused Justice. Which we are! No amount of PR can correct these errors. The public feel more cheated when they fail to live up to their PR. Like the GMC with: "**We work to protect patient safety...across the UK.**" Not so, just more PR deception.

I have, naively, supported the Police and the GMC all my life. The truth has been revealed; **they care not**. Consider my complaint. How do you think I feel about the way the police have handled it? Not good at all. My papers, evidence, and proof all lost. (thrown away!) A normal response by the police? I am only one of many; and the police are building a **wall** of distrust; it will only get higher. What a waste. E.g. I was **advised** "Not to annoy the Police." They would come and kick the front door in and "find" drugs, pornography, stolen goods, or similar, to discredit or arrest me! Do we accept intimidation? Threats; by the very people *we pay* in our rates! At some point, collectively, will we need to make a stand? This will ruin Police support / integrity. Civil war? Allow me to add: I have **NO** illegal drugs, stolen goods, nor pornography, etc. If they arrest me I shall **never** commit suicide (love life) so if I die in custody, however they make it look; it **will** be *murder*; not by my hand. (just in case.) Call me paranoid; but consider; I have had to write this letter and trouble you.

From: Mr Jerome Thomas. (retired) The Hollies, Tynreithin Tregaron Ceredigion SY256LW 15 / 6 /2021

To: Your Lord and Ladyship . Judicial appeal 8 Why cannot I let it go? Page No. 8 of 12.

Why cannot I "let it go"? Because: these doctors ruin peoples lives. My income was *a fraction* when blinded by these doctors. I also could not fulfil my family, *for years*. My wife had cancer; and my children problems. The damage by these doctors presented difficulties for me, and my whole family. They should not do this. I do not need to reiterate it all again, it is in my letters to the GMC and Police attached. All painful memories. You may understand if you put a blindfold on - not to see the blue sky, cotton wool clouds, a green lawn, the flowers, or my wife/children. All this; plus the years of pain, and denial, by the NHS GMC and Police! Evil. I cannot think of *anything* more evil, except torture, than to make anyone **deliberately** blind. Try it sometime! Also he refused to help me, saying I must stay this way, refusing his help. This consultant whom blinded me. And if you speak up - he tries to **kill** you! Note - I write not from *maybe's* but **provable facts**. Denied by all. Professor S Hayreh - whom also gave the **remedy** for NAION [awakening blindness] Prednisolome, taken in 14 days had a 75% success cure rate. I showed these papers to the consultant and he rubbish-ed them. I asked for **anything** to cure me, please? He refused to discuss it, and refused to prescribe Prednisolome. My G.P. kindly gave it to me, and my sight recovered almost completely, within days! The consultant became extremely angry(?) He recommended an MRI head scan saying it was perfectly safe, like an X-ray. I attended his scan - which ran for 80 minutes by the wall clock. I could not rise off the table! The radiologist assisted me and I asked her "why did it take so long?" She replied, " It was multiple scans as ordered by the Consultant and I would have to ask him." His assistant Dr. R. Paul meanwhile also did an eye pressure test using local anaesthetic he stabbed into my right eye. When the anaesthetic wore off the pain was extreme. The MRI head pain lasted over **3 years**! Lost balance, black-outs in the street and, my eye never recovered. I complained to the NHS - whom believed the lies of these doctors. I reported it to the GMC - whom found **no fault** with the doctors. Then I reported it to the Police **3 years** ago, and they **refused** to investigate my claim. Only deny it ever happened. "**No crimes committed..**" Nothing has been done, to stop them doing it again. Now an 82 year old pensioner, I cope, like most, to pay my way. I cannot afford expensive solicitors - whom decline to act for me; as to be "**futile**" against the police and doctors. But I have survived their mal-practices. About money: I am willing to pay, from what little money I have, to bring this review to court to stop them if possible. No more patients should suffer as I did. This is how **serious** I am - to prevent these doctors hurting others in the same way. They blinded me, gave a grossly excessive MRI head scan, and stabbed my eye. May I ask the court please, that we each **pay our own costs**; as I am unable to pay **their** costs from my state pension. I have budgeted for court fees, hopefully to be up to approx. £1000, with no solicitors. These are your "dogs" who have lost me the last 8 years in blindness pain and suffering. Please stop them.

To: **Your Lord and Ladyship** . Judicial appeal 9. **My Twilight years** Page 9 of 12.

I believed (hoped) these last years of my life would be peaceful, at home, playing with my “colouring” book. What I call my computer; after my childhood, when I was ill with measles, etc. my mother would bring me.

Note: Both these doctors acted ***deliberately, knowingly, fully aware***, of the ***Evil*** in their treatments. Their treatments were ***not*** accidental, ***not*** negligent, simply and expressly ***deliberate!*** Without any doubt.

I am a truthful factual material witness. Reporting how I have been refused, by ***repressive organisations***, whom have ***all denied*** my statements these past few years. With no thought for me or others. I claim:

These were; and always will be, truly appalling ***crimes*** for ***any*** victim. Regardless of the perpetrator’s status. I.e. I ask you to agree: From near perfect eyesight - to make anyone blind deliberately ***is*** a crime, whoever does it. To “cook” anyone’s head in an MRI scanner for 80 minutes ***is*** a crime; also ***stabbing*** into my eye.

I ask: please would you review my case for the benefit of others, who will receive ***the same*** treatment that I suffered. GBH and attempted Murder. What you do with these doctors is not for me to say. Not my concern.

Truthfully, these are your “dogs” and I ask you to treat them accordingly. The GMC and Police have ***refused to investigate*** what these doctors did. Ignoring the witnesses, ***conclusive*** medical evidence, facts, my sworn statement etc. i.e. ***Not one of these officers***, including the ***IPCC*** or ***IOPC*** would investigate my complaint!

I ***can still see*** (only with one eye) the unbearable head pain has rescinded after eight years and, I manage. ***Every organisation*** and ***person*** has rejected my complaint. ***All investigation refused***. No one wants to believe my story, no matter how true. If you also reject me, does it ***really*** amount to a “hill of beans”? I will die soon; the doctors will carry on with their “Jekyll & Hyde” practice until, hopefully, some one else can spot what they have been doing, ***for years***. The GMC and the Police will go through their routine of denials; the only persons hurt are those they abuse? Over time this may be ***hundreds!*** Also, they are tutoring the new young doctors into their doctrine. So it will multiply. This is corrosive; overall corrupting. This “***watch my back and I will watch yours***” philosophy is bad. The rogue professional, in any profession, corrupt their larger team. A rotten apple in the barrel syndrome.

I now see this affects ***all*** the professional walks of life; even the Police. It has spread too far for public good. Deliberate mistakes and errors proliferate; good people are compromised; and inevitably, a “barrel becomes rotten” ***Every*** serious error by ***anyone*** should be transparent; reported to ensure the good intent of the team. Integrity if you will, so the ***whole team*** is good and, weeding out corruption. Whatever profession is involved.

I have been very disappointed (appalled) by the responses to my complaint. Denied by authority. A Cover-up. It is not my concern what happens with these doctors. (No Duty of Care) These doctors know this. (in their hearts; and why they tried to kill me.) The GMC know this; they ignore me ***deliberately***. Ignoring ***their own*** GMC directives. The police know this; ***refusing*** to investigate, to grasp the nettle; these most serious crimes.

For ***60 years*** I have supported the Police; paid ***£1,000’s*** of pounds in rates tax, ***for the police***. And the ***first time*** I inform them of this ***most serious*** of ***crimes***, GBH and attempted Murder they ***refuse*** to help: everyone!

May I ask you, not for myself, but for all those elderly persons (I have seen) whom innocently wait for hours and can be prey, like me, in their hands. ***Please*** do not fail them. I respected the knowledge and expertise of these doctors and they made me blind! Then tried to murder me! I found out what they did and knew to much.

If I embarrass you - I am sorry. If you condone what they did, you fail to see justice prevail and collaborate. Please would you acknowledge my letter. Thank you for your time, your Lord and Ladyship.

Yours most sincerely,

Jerome Thomas. (Encl. short list of associated letters and replies sent to the GMC, Police & Commissioner.)

I swear: ***Every word I write here*** is the truth, the whole truth, and nothing but the truth. So help me God.

Removal of these two men, as doctors, off the Medical register. To prevent repeated occurrences by them on an unsuspecting public. Actions to cause severe pain, blindness, and death, to others. Needlessly. I.e:

a) The incorrect timing of his prescribed Lumigan eye drops. **Bedtime** by Mr Kulreshka, **definitively** to cause NAION. (Awakening blindness.) This Lumigan, a **correct medication**, to be applied **no later** than **Evening**.

b) His prescribed (ordered) multi-MRI head scans of **80** minutes duration. A **grossly excessive** duration; a **known contrary** and fatally damaging duration. To cause death, by stroke embolism aneurysm or similar.

c) The stab in my eye, in a fast **pretence** of an eye pressure test by Dr Paul, to **deliberately inflict**, and did cause, intense pain with **permanent mechanical damage** to my eye. (Blind.) Truly, a **sadistic** "treatment."

These doctors: disqualified **them selves** by mal-practice and dishonesty. Causing years of pain & blindness.

Remove *all* the **dysfunctional** executives, examiner, and staff of the **GMC**; for ignoring denying and refusing to accept, nor correctly respond to, my complaint. Replace them by others who **can** accept real complaints sympathetically. Understanding that **anyone**, going to the trouble of complaining, *needs* help. Not dismissal!

Also: to reply in **compliance** with their medical directives & confirmed published medical papers. **(No fudge!)**

Replace these Police officers for **denying** a victim. Install a correctly trained **dedicated team** to give a **fair sympathetic and just** response to **all** that complain. To ask what **can** the police *do*, to put it right? Currently their unsympathetic denials and refusals to admit that **any crime** has been committed is "a **slap in the face**" for anyone who has been hurt already. This does **absolutely nothing** for the victim. Allows the perpetrator to get away with, and repeat, their crimes. While **revealing how completely useless** it is, going to the police!

I.e. Heavily biased **opinions** in favour of the perpetrator. Denial of **any** crime does **nothing** at all for a victim.

Thankfully, I do not have to do their difficult job; nor with members of society. However: **As it is of now....**

please agree: **There is no Justice!** Only **what these policemen say it is!** The police **attitude** is **incorrect**.

They are Crown employees in the public service; not an army of occupation; armed & threatening - **by might**.

These doctors are in the same public service. How many more "patients" will they blind, like they did to me?

Who can ever stop them now? Years later, there is a public outcry, seen in the many **denials** by the GMC.

I accept: you cannot restore my eye sight; nor the damage to my head, by these men. But you do have **this chance** to stop them treating more persons in **the same way**. With compassion; I ask not for imprisonment, nor fines. Only to rightly, and **justly**, to *please* stop them doing to others what they did to me. I thank you.

N.B. Both the GMC and Police have **totally refused** to stop them May I ask you please to review **Justice?**

From: Mr Jerome Thomas. (retired) The Hollies, Tynreithin Tregaron Ceredigion SY256LW 15 / 6 /2021

To: **Your Lord and Ladyship.** Judicial appeal 11 **The concise version. (1) Page 11 of 12.**

I stress that these actions, by these doctors, were deliberate. This **is the point** of issue.

They were not accidental, I can live with this; we all suffer accidents. They were not negligent, we have suffered a few of these, and readily forgive; we are all human. No; what these two doctors did was **deliberate**. They **knew** what they were doing; and this **is** the issue. *Pre-disposed to Evil*. They had prescribed contrary to the GMC and medical practice - and knew, they were in trouble.

These doctors knew it; they knew that I knew it. The NHS, believing the lies of the doctors, and to avoid litigation, supported their employees; their lies and slander of me. That I was a druggie; had demanded medication; and missed several un-cancelled appointments. **All untrue**, complete lies. I swear I have **never** taken (or obtained) any illegal drugs in my entire life. I have never *demanded* medication; asked yes, but appreciate doctors have a responsibility for drugs. And, I did not miss un-cancelled appointments. If it is impossible to attend I telephone before hand and make another. There are *far more* lies by these doctors, but sufficient to say, they have *no problem* at all with lies. If they gave their **word** "never to do it again" I would have belief doubts. Struck off is the only way.

For the last 8 years, I was in head pain for the first 3-4 years, plus severe eye pain, enabling them to claim 3 yr. prosecution exemption. Structured in by prolonged delays to my letters of complaint. (few encl.) The GMC have **no regard** for the victims. They made a big PR case, at the time, stating: " **We work to protect patient safety and...** etc." Nonsense! The executive & staff replied solely to **protect** these doctors. Found fault with my complaint; and contradicted their own directives. Finally refused to stop these doctors. I.e. The GMC are **willing complicit accomplices** for these doctors. Simply an *exceptionally biased* organisation - for the doctors. Against a genuine victim's complaint. I see now; this is why cases take years to come out in the Media. Hidden for years - **by the GMC!** The **Police**. They enforce the law? **Only if they want to!** I compiled an A4 file of some 30+ pages and handed it in to the Police in Aberystwyth requesting a receipt. **Refused**. I telephoned twice to see it had been received by the right persons (CPS) and was told: "it had been lost." I.e."Dumped" *Weeks of work, discarded*. I supplied a copy. Several months later Mr Rees phoned me and said:

From: Mr Jerome Thomas. (retired) The Hollies, Tynreithin Tregaron Ceredigion SY256LW 15 / 6 /2021

To: Your Lord and Ladyship. Judicial appeal 12 The concise version. Page 12 or 12

The police **would not** be pursuing my complaint (GBH and attempted murder) because “too many people were involved” or words to that effect, as I understood him. This was confirmed in writing several months later. (Please see letters encl.) I appealed to the IPCC - IOPC, who sent it back to the **same police officers**, “for local resolution.” Denied! I asked the Police Commissioner - whom is employed to **represent the public**; asking him to intervene for me please. He also, tactfully refused. Am I missing something here? *Is it* for “internal resolution?” These are **serious crimes**; not petty theft. **Crimes** which have ruined my last years; caused loss of eyesight and years of on-going pain. The perpetrators are **still employed** by the NHS; selecting whom to blind next; and also training junior doctors, in **their** sadistic ways. May I say to you: **can this ever be**, for the public good? More appalling is the **collusion** between the Doctors the GMC and the Police to ignore the victims. Intimidate him/her with denials; rebuttals, refusals, and **any other excuses**, it seems, to deny them. Mean while the perpetrators continue; selectively; on to yet more victims; **knowing they are safe!** This Evil; this corrupt progression; defeats everyone eventually. In conscience, I have to speak up. I live by simple rules. 1. Cause no harm. 2. Always tell the truth. 3. Be considerate and kind. 4. If I make a mistake correct it asap. 5. Never *argue*, with persons whom are genuinely upset. etc. All this to stop anyone else receiving the same treatment they gave me. I **have to** speak up. True? These doctors **knew exactly** what they were doing. As consultant he could be **expected** to know. I trusted their knowledge and expertise; respected them, their prescription, - and they abused me. They made me blind. Knowingly, deliberately, sadistically. In a word, Evil. To bring ruin into my life. Later, he *admitted* they **were aware** of the medical publications I showed them. So *why?* - Evil. Realising I knew **far** too much they decided to murder me. By a **heinous 80** minute MRI head scan. Also; stabbing into my eye. *Why?* As doctors, they are truly **mentally ill!** Beyond Evil, as doctors. Worse: they reveal and expose a **corrupt network**, integrated in society to **deny** the common man Justice. I.e. **Refusal, by the GMC, and the Police, to investigate GBH and attempted murder!** **Employees**; paid for in our rates; payments taken by **force** if necessary; who **break** their contract! Please can you agree: **I find there is no Justice here.** I thank you for your time your Lordships. Jerome Thomas. Retired. (And fed up explaining the obvious.)

Judicial review dismissed - out of time (Historic)

Dear Ms Nia Jones,

Thank you for such a speedy reply to my letter! (I wish I could write letters so fast!) It takes me **ages; as in months!** To compile and write my letters; hence the delay. (I am 82, p/blind etc. that's my excuse!)

Naturally, I am very disappointed in your reply of "Historic." Admittedly my complaint has been on-going for many years now. However, this does not deny the **truth of it**. Please do inform Mr. Goddard for me.

I understood that there was "**no time limit**" for reporting GBH and attempted murder?

The police obviously do not wish to pursue this; even though it may **save many others** from receiving the same treatment - NAION, blindness, pain, and grossly excessive MRI head scans, as given to me. In this: correct me if I am wrong; is this what the police are **employed** to do? Protect the public? Yes?

No; as it seems. Simply refuse the victim; no matter how serious the crimes? Find any viable excuse. Only that I was blinded, stabbed in the eye, and my head "cooked" for 80 minutes in a MRI scanner! Apparently the Dyfed Powys police are happy to condone these crimes, - and to disregard the victims. To even *argue* with the victim! - until he gets exasperated and goes away! Well, I have done my part.

I have reported this to the police, now for 3 years! They have stated in writing their *refusal* to investigate! Both the GMC and the Police. These two men, acting as doctors, tried to murder me. I offered the police conclusive proof - and the Police refuse to investigate! It is as simple as that. The police have refused to investigate attempted murder? Why? The actions of these doctors were immoral, sadistic, and **Criminal**.

Please do accept, this can **never** go away. These two men, doctors, are a danger to the public. And you, the police, are now **accomplices**; - in refusing to stop them! I will have to try a different approach. I never give up. GBH and attempted Murder is too great a crime - for anyone to accept. You know that.

There is no need to return my cheque, thank you. I can cancel it with the bank. Paying this money, as a pensioner, shows just how **serious** I am to prevent these men from doing their evil. Would you like it? (done to anyone you know?) I think not. With no apology, no remorse, contrition, correction, nor Justice.

Thank you for your quick reply; at least now I can move on. This *will* come up again; I just wish the GMC and now the local Police, had played their true part in stopping them. Not to be. The case continues.

Yours most sincerely,

Jerome Thomas.

F.A.O. Ms Nia Jones (For Mr. L. Goddard.)

Ref. JH/024025

Dyfed Powys Police Legal Services Dept.

Dyfed Powys Police **HQ.** PO box 99

Llangunner Carmarthen SA31 2PF

Dear Ms Nia Jones, for Mr L. Goddard. Judicial review dismissed - out of time. (Historic) etc.

Thank you for returning my file of papers. I appreciate also your help in having *your* papers correct. Although I printed the extra copies I have accepted your refusal to proceed with the Judicial Review. It reminds me of the old Rabbi joke, who was praying at the Wailing Wall. Asked for what he prayed? His reply was, "For world peace, the Jews and the Arabs, the whole world over." How long have you been praying for this? Asked the reporter. "About 20 years," he replied. "And what effect has it had?" said the reporter? "Like I am talking to the bloody wall." Said the Rabbi. I have only done 8 years, so far.

We move on: I have not been feeling too well these last few days, I think the heat is not helping. I had a minor epiphany last night, while resting. Although "out of time" maybe valid, according to your rules; but please note, I have "tendered" my complaint for the last **eight years**, all with no affect. From the NHS, the GMC, nor the Police. Let me explain: I bring you "bread, not bullets." [Don Quixote] It is in the interest of **everyone** these doctors are stopped from their mal-practice. I am the very least of your concerns. As I write the truth; and the doctors **did do** their mal-practice; if follows these organisations are **at fault**? I.e. They are acting **incorrectly** by dismissing my complaint. Worse: to allow these doctors to continue.

I have concluded that the police are **never** going to investigate my complaint and, more over, they feel **extremely confident** in refusing me; - in the knowledge **they** will be supported, in **any** review. Such are the powers invested in them. To **command** the support of the judges, as of a **right**. (not might as for me.) Moreover: I will have to find at least £1,000, probably more in total; to embarrass them? All to **no avail**. They *can* make an easier **fool** of me, upon **their** stage; than I could ever possibly of them. **Pointless**.

I have played my part **already** - by **reporting truthfully**, accurately, and specifically, **exactly** what these doctors did. **Prove able facts**. Deliberately blinded me (NAION) Stab into my right eye (mech. damage) and, when I knew the truth, tried to kill me! With a **grossly** excessive MRI head scan. (Double duration.)

My point is: I **do not have to say it anymore!** They, the GMC and Police, have revealed how **complicit** they are; as **accessories** to GBH and Murder; for these two men. To **let** these two men continue their mal-practise and injury upon patients. Willingly to aid abet and **prolong** - their sadistic treatments upon patients by these doctors **is** a GMC and Police **Evil**. (I can confirm this, having been one of their victims!) These GMC and Police officers **have failed** to protect the public. **Refused** to protect the public; and been rewarded for doing it! How does this affect me? I do not have to explain anymore! The **onus** is on them.

Every patient these doctors inflict blindness, NAION, upon is the **sole** responsibility of **these officers**. **Every patient** these doctors inflict with an eye stabbing, - again, **these officers** are **solely** responsible! **Every patient** who has his or her head damaged, in an MRI head scanner, by these doctors; these GMC and Police Officers are **solely** responsible! **Because: they all have refused to stop them. My relief!**

This is **not my worry** anymore! **Not** on my conscience. I **do not** have to do **anything** about it! I am **Free** **thank you**. I shall still try to inform the public, of the danger here; for their safety. Going into danger. But it's not my responsibility any more; what they do, these GMC and Police officers. They have made it **abundantly clear** my information is of **NO help** to them. In fact annoying! (I do not mean to be annoying, ever.) Only I **had** to report my experience (of these doctors) to the relevant authorities. And now, I have. **Finished! After eight painful years! I'm FREE!** At last. **It's ALL down to you now!** As I wrote to the police; I will **not write to you again** on this. I admit: their fidelity to support Evil has been **outstanding!**
Yours most sincerely,
Jerome Thomas. CC. to all interested parties. **"Nothing's going to stop them now...running just as...**
