F.a.o. Mr. L Goddard. Legal Services Dept.

Dyfed Powis Police H.Q.

PO Box 99, Llangunner, Carmarthen.

SA31 2PF.

Dear Mr. L. Goddard,

I write, in conclusion, to your letter of the 21st July. (encl.) This is my final contact; as pointless.

Your points in order:

Historic. Yes this is true. I have reported my complaint for several years now; all with no effect.

The GMC and Police have repeatedly: denied, obstructed, and perverted my appeals for Justice.

All Officers have failed in their duty; refused to investigate; denied and “lost” my complaint files;

refused my appeals; and undertaken whatever they can as necessary to cancel my complaint.

In defence: Anyone who is painfully injured may not be able to conform to your rigorous time tables.

This, your very easy “catch all” excuse to dismiss any and all complaints; shows no consideration.

No continuing act of Involvement: Not so. I wrote: I would not write to the Police anymore, as pointless. This does not mean no act of involvement by me. I have been seeking other legal ways to save more persons suffering the same treatment as did I. These will come to the fore soon.

Please Note: The GMC and Police have: Failed to act in their contractual duty to investigate GBH and attempted murder. Crimes for which there is no time limit. In fact: They refused, repeatedly, to investigate these very deliberate sadistic criminal crimes, while obstructing and perverting Justice. By allowing these two men, the perpetrators to continue their evil, the Police have failed and refuse specifically, to enforce the law, and also to protect the public. The Police have acted incorrectly. I bring this to your attention solely in the wish that you may restore my belief in the Police? Unlikely.

Failed to comply with the Protocol. I submit: that any layman who has been made blind; head cooked for 1 hour 20 minutes in a “micro wave” scanner; and was stabbed in the eye; has far more to worry about than your unknown protocol? I ask: how would you handle this treatment, if done to you? Clearly the Police have shirked and refused to do their contracted duty; to enforce the law. To do this they deliberately, knowingly obstructed and perverted Justice. A condemning true fact. Your “smoke screen” of my errors is an extension, a collaboration of their refusal to enforce the law.

When you go to bed, and awake in the morning, give a thought for all those who cannot see now. Because you, the Police, have repeatedly refused to do your duty and investigate these two men. For GBH and attempted murder. Crimes which have no time limit, and all this, due to your officers. My appeals (and your rejections) can be read on: <http://www.inreply.co.uk/lumigan/> and other sites. My conscience is clear; I have done my best to have them stopped. Not for me, for all those after.

Yours most sincerely,

cc..**Ms. Claire Parmenter** Temp. Chief Constable.

Jerome Thomas. Retired GPO engineer 83. Happy to try and help restore far happier times.
